Please name something that the PSU has done that you would like more of (e.g. conference presentations, webinars, articles, online forums, opportunities for students):

(1) conference/webinars/articles

(2) all

(3) not sure... very little is offered to west Australian members... I watched one excellent webinar though

(4) To be honest, I'm only aware of one webinar that the PSU provided since I joined and it was a bit old hat. It's a shame. What would be awesome is if the PSU did a digest of the key articles from the journals, perhaps every quarter, with a summary and link. That would be a wonderful resource.

(5) online webinars

(6) some form of leaning around synthetic drug use and possible dangers for the therapist

(7) Presentations

(8) I am only aware of the FB page. I would like more webinars

(9) training/professional development opportunities

(10) I attended to one webinar a few years ago which was excellent. To be honest i'm not aware of anything else the PSU has done. I only just found out there was a facebook group which is disappointing - i have been a paid PSU member and was never notified anywhere this was a thing (until today). I'm glad you are looking into doing a regular email of updates - this is really important for members

(11) conference presentations

(12) the newsletter just sent out

(13) webinars

(14) online learning – sport and drugs

(15) articles

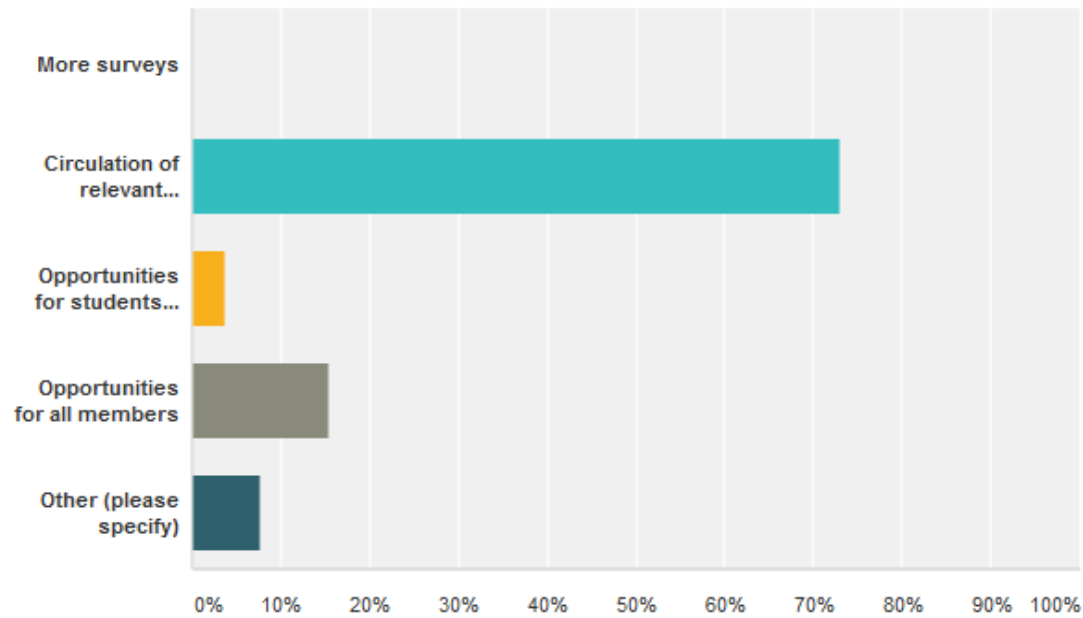

(16) webinars online training

(17) training workshops

(18) online forums
